**WAGO's New Pro2 Power Supplies Maximizes System Uptime**

Germantown, WI—March, 2020— Setting new industry communication and parameterization benchmarks, WAGO's Pro2 Power Supplies include six units ranging from 120-960 W and an energy conversion efficiency up to 96%.

The power supplies incorporate an interface allowing them to be tailored to any application requirement. The units also offer monitoring functions that provide continuous power supply data information and signal errors for application monitoring.

They also have easy fieldbus connection with snap-on type communication modules with WAGO's exclusive high-performance TopBoost and PowerBoost capabilities, maximizing system uptime and lowering hardware costs. TopBoost boasts 600% extra output current, enabling protection for up to 15 ms compared to conventional circuit breakers. PowerBoost provides an extra 150% output current for five seconds providing superior reserve power.
